We strongly recommend to use a high gain XLR microphone with this cableset (PRH-CHIP1) in order to enable all features and a perfect audio quality provided by the PocketREC low level DSP control on the certified iPAQ devices.

PocketREC cable sets are available bundled with our PocketREC Broadcast Edition software packages. PocketREC enables the full features of this microphone set by its integrated, direct DSP control of the iPAQ devices. For replacement cable sets, please contact the PocketREC Support Team (support@PocketREC.com).
